The first date is when we will be milling the road and paving a base layer.

The second date is when we will be paving the surface layer.

During the milling and base layer phase, access on roads and to homes will be very difficult. Please refrain from parking in the street those days. Feel free to park on adjoining streets. In the event of an emergency, crews will work with first responders to give them whatever access they need. Crews will also work with any homeowners who need access on the road due to work, doctor appointments, or any other urgent appointments. We ask that you please follow the construction crews directions and signs during these times. We apologize for any inconvenience this may cause and will update you as things progress.
